

- Discord meeting:
 - Restructure awards feature user stories to better match the implementation of the feature
 - New awards user stories:
 - as a yapper, I want to earn achievements based on the interactions from other yappers on posts I make
 - as a yapper, I want to see the achievements I have earned
 - Create a tiered system for the hidden awards system
 - Bug fixes for sprint 3!
 - Make mobile dark mode friendly
 - Switch friend requests to use usernames instead of UUIDs
 - Make endpoints to delete a friendship and get a specific friendship
 - To have persistent upvotes and downvotes, create tables for votes for all environments
 - Use the same table for both kinds of votes to avoid having too many tables
 - Set up a global secondary index to make queries faster
- Action items
 - Assign new bug fixes to individual group members
 - Start sprint 3 feature development
