

- Check-in with the group every day on Discord
 - Communicate what you're currently working on
 - Communicate what you've completed so far but haven't pushed to GitHub
- On Sunday, we will audit all the work left to do on the UI
 - If everything is not finished in time for the deadline on Wednesday, then Qiwen and Cynthia will help with the Mobile development
 - We need to keep in mind that the acceptance tests also need to be done before the deadline on Wednesday too
