

- Discord meeting:
 - Qiwen got the Jenkins server running on the VM
 - We ran into some issues triggering builds through Jenkins, but this was eventually fixed
 - We need to duplicate all our database tables to have one of each table for each environment
 - Some of the tests were failing in the pipeline build that were passing on our local machines
 - Daily check-in (29th):
 - Qiwen: worked on getting the Jenkins server up and running properly
 - Cynthia: worked on finishing documentation and reviewing PRs
 - Kelly: patching bugs found in friendships, brought up changing friendships to be made with usernames instead of UUIDs sometime in the future
 - Tara: worked on transcribing and formatting meeting minutes
 - We ran into another problem with the CD portion of the pipeline, Kelly volunteered to help Qiwen with getting Jenkins to run smoothly
 - Deadline for sprint 2 was moved back to Nov 4th, worksheet due before meeting with product owner
 - Discuss sprint 3 commitments
 - Hidden achievement system feature - Cynthia & Kelly
 - Finish interactions with posts feature - Qiwen & Tara
 - Refactoring and fix any bugs that pop up - everyone
 - Schedule meeting for sprint 2 demo and sprint 3 commitments for Nov 6th after class
 - Pipeline update on Oct 31st:
 - CI portion is done
 - CD portion is almost done, some lines still giving us trouble
 - There's some trouble with having the website and mobile pointing to the same environment
- Action items:
 - Duplicate all database tables for multiple environments - Tara
 - Fix tests that were failing in pipeline build - Kelly
 - Get Jenkins CI working completely
 - Try to get Jenkins CD working soon
