

- Discord meeting:
 - Cynthia is to take the remaining acceptance tests for the interactions with posts feature
 - We're all finishing up our scripts for the technique-sharing presentation
 - The vote buttons are still acting weird, they'll temporarily be disabled after being clicked to give time for the API endpoint request to complete
 - Everyone timed their section of the presentation to ensure we collectively remained under 10 minutes
 - Some bugs were found in both the mobile app and the website
 - We're wrapping up backend work for sprint 3 features
- Action items:
 - Continue feature implementation and work on bug fixes
